Send Asbestos Requests to: (e-mail) merricklandfill@northbay.ca. Please call the Merrick Landfill at 705-495-0746 before sending requests and do not assume load is approved until you receive confirmation from staff. E-mails are not always monitored.

Send Soil Requests to: Matthew Procnier, Landfill Operations Coordinator (e-mail) matthew.procnier@northbay.ca (Phone) 705-474-0400 ext. 6110

- \* Merrick Landfill asbestos deliveries must comply with Ontario Regulation 347 and must be approved by landfill staff 24 hours in advance of delivery.
\*\* Contaminated soil must be tested to Schedule 4 Leachate Quality Criteria as determined by a certified laboratory using approved TCLP or mSPLP. All samples must also be tested for PFAS and show non-detection. Clean Fill must meet Table 1 Agricultural Standards as listed in the Soil, Groundwater and Sediment Standards for use under Part XV.1 of the EPA, April 5, 2011. Sampling of the soil will be conducted in such a way as to provide results representative of all loads. All Ontario Regulation 558 sample results shall be provided to the City with the return of this form. Deliveries to the Merrick Landfill will be rejected if analytical results have not been approved.
