

BY-LAW NO. 1969

BEING A BY-LAW to regulate sewage and drainage and the operation and maintenance of sewage works and sewers.

WHEREAS separate storm sewers and separate sanitary sewers have been constructed to serve certain lands or premises within the City of North Bay.

AND WHEREAS separate storm sewers and separate sanitary sewers will be constructed in the future to serve other lands or premises within the said City of North Bay.

THEREFORE THE MUNICIPAL COUNCIL OF THE CITY OF NORTH BAY ENACTS AS FOLLOWS:-

1. In this by-law -

- (a) "Drainage piping" shall mean all the connected piping that conveys sewage to a place of disposal, including the building drain, building sewer, soil pipe, soil stack, waste stack and waste pipe, but does not include
- (i) a main sewer, and
 - (ii) piping used for sewage in a drainage piping.

and "drainage pipe" means any pipe in drainage piping.

- (b) "Sewage" shall mean any liquid waste containing animal, vegetable or mineral matter in suspension or solution.
- (c) "Sanitary sewer" shall mean a street or common sewer intended to receive effluent from a sanitary building sewer only.
- (d) "Storm sewer" shall mean a street or common sewer intended to receive surface or sub surface water only.
- (e) "Storm piping" shall mean all the connected pipes that convey surface or sub surface water, or other than sewage to a place of disposal, and storm pipe means any pipe in storm piping.

2. No person shall connect or permit to be connected, directly or indirectly, to a storm sewer, any drainage piping carrying sewage from any lands or premises.

3. No person shall connect or permit to be connected directly or indirectly, to any sanitary sewer, any storm piping carrying surface, roof, or weeping tile drainage from any building or structure hereafter constructed or from any building or structure hereafter reconstructed or replaced from the footing up, except that it shall be so constructed that the sanitary drain and the drain system carrying the surface or roof water shall be kept separate and shall be connected only outside the building or structure at a point not nearer than three feet from the outside of any external wall. No such connection shall be made, used or maintained where the use of separate storm water sewers and separate sanitary sewers is required by this By-law.

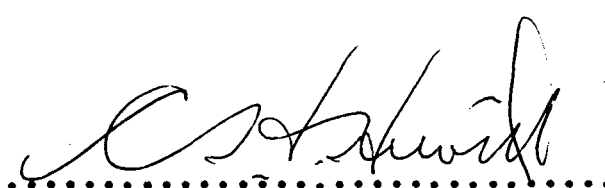

4(a) Where at any time a storm sewer is available to serve any lands or premises by means of a storm piping connection constructed by the Corporation of the City of North Bay to the street line of such lands or premises, the owner or occupier of such lands or premises shall, upon written notice from the City Engineer, cause all storm piping carrying surface and/or roof and/or weeping tile drainage therefrom to be connected thereto.

- 4(b) All weeping tile drains, connected to the sanitary sewers at the time of the passing of this By-law will be permitted to remain, except where it is shown by test that the flow at any time from the said weeping tile exceeds 15 imp. gals. per hour. Where the flow from the weeping tile exceeds 15 gals. per hour, the owner or occupier of such lands or premises, shall be required to disconnect the weeping tile from the sanitary sewer under the provisions set forth in this By-law.
- 5. The owner and/or occupier of any and all premises within the City of North Bay shall at all reasonable times, allow the Engineer, Assistant Engineer or Plumbing Inspector free entry and inspection of such premises for the purpose of conducting tests and otherwise ascertaining whether or not the sewage and drainage facilities of such premises comply with the provisions of this By-law.
- 6. Where any lands or premises are directly or indirectly connected subsequent to the passing of this by-law with any storm or sanitary sewer in violation of the provisions of this by-law the City Engineer shall serve upon the person assessed as owner of such lands or premises, by registered mail, addressed to the address of such person as shown by the assessment roll, a notice, in writing, of such violation and directing such person to discontinue such violation. If such violation shall not be discontinued within thirty days of the mailing of such notice, the City Engineer is directed to disconnect from the storm or sanitary sewer such storm or drainage pipe connection as is prohibited by this by-law. Compliance by the City Engineer with the provisions of this section shall not be a condition precedent to prosecution for any violation of this by-law.
- 7. If any storm or drainage pipe connection be disconnected under the provisions of the preceding paragraph hereof, the premises served thereby shall not be again connected to the storm or sanitary sewer in violation of this by-law, and no other connection from such lands or premises shall be made until there has been paid to the City the cost of disconnecting the said connection and for connecting the storm or drainage pipe from the said premises to the proper sewer.
- 8. No new storm or drainage piping connections shall be made from any lands or premises to a sanitary or storm sewer in the City of North Bay until an inspection has been made of such premises by the City Engineer or the Plumbing Inspector of the City of North Bay, and it has been satisfactorily established to either of them that such connection will not contravene the provisions of this by-law.
- 9. It shall be the duty of the City Engineer to enforce the provisions of this by-law.
- 10. Any person convicted of a breach of any of the provisions of this by-law shall forfeit and pay at the discretion of the convicting Magistrate a penalty of not less than \$50.00 and not more than \$300.00 exclusive of costs for each offence, such penalty to be recoverable under the provisions of the Summary Convictions Act.

READ A FIRST TIME IN OPEN COUNCIL THIS 20TH DAY OF MARCH 1961.

READ A SECOND TIME IN OPEN COUNCIL THIS 21ST DAY OF AUGUST 1961.

BY-LAW READ A THIRD TIME AND FINALLY PASSED THIS 21ST DAY OF AUGUST 1961.
