Whereas THE MUNICIPAL CORPORATION of CITY OF NORTH BAY has submitted to the Ontario Water Resources Commission plans, specifications and an engineer's report of the proposed works hereinafter referred to, together with such information as the Commission has required and has applied for approval of:

the installation of fluoridation equipment including one (series A-690) volumetric dry chemical feeder with jack shaft arrangement for low feeds, a 25-gallon fibreglass mixing tank, weigh scale, recorder and discharge tubing and electrical equipment, at a total estimated cost of THREE THOUSAND FIVE HUNDRED DOLLARS ($3,500.00), with the understanding that the dosage of the fluoride ion will be maintained as close as possible to 1.0 part per million (1.0 p.p.m.) and that regular tests on the treated water will be carried out as may be directed by the Commission from time to time.

Now Therefore this is to certify that the Commission after due enquiry has approved the said proposed works under Section 30 of The Ontario Water Resources Commission Act, 1957.

DATED AT TORONTO this 29th day of December 1961.
